Temporary Electrical Service Agreement and Affidavit

In order for temporary electrical service to be granted and approved, the owner of the property where the temporary electrical service is to be placed must sign the following affidavit.

As the owner of property located at:

I understand and agree to the following:

An application for temporary electrical service has been submitted to the Mathews County Building Department. I have read, understand and agree to the Temporary Electrical Service Policy of Mathews County.

Temporary Electrical Service Policy

If a permit is issued for temporary electrical service, the following shall apply:

1. All work must comply with the Virginia USBC, the NEC (NFPA 70) and Dominion Energy requirements
2. An inspection must be performed per the Required Inspections List
3. Temporary Service shall only granted for a specific use and specified time period
4. Temporary Service will be disconnected, when any of the following occurs:
 - The time period expires
 - The permit expires or is revoked
 - The service is being used contrary to the permitted use
 - Any unsafe conditions are discovered

Note: eventually all temporary electrical service installations must be disconnected
